To Whom It May Concern,

LETTER OF RECOMMENDATION

I would like to recommend Sujana Samia Sinthia as I have known Sujana both personally and professionally for more than 7months. Sujana has worked with me in Mesinkira Sdn. Bhd. as a Software Engineer for 6 months between August 2023 January 2024, where I was Technical Leader. She has always taken her role seriously and is passionate about her results. She has been one of the key driving team members behind technology and innovation. She did well in her software engineering internship, quickly learning and executing tasks to a satisfactory level. While there are areas to enhance in terms of programming skills, her overall performance was solid and consistently met expectations. She always demonstrated a positive attitude towards learning and collaborated well with other teams. Along with the expansion, she had helped establish software development processes and best practices within the technical team. I have found she to be a fast learner, ambitious leader and terrific team player. Her proficiency in English communication is impressive and language skills reflect a high level of competence. It is my belief these qualities would make her an outstanding student. Please contact me at any point should you have questions about this recommendation.

Kind Regards,

NIK MUHAMMAD FIRDAUS WAHAB

Technical Leader Mesinkira Sdn. Bhd.

FAKULTI SAINS KOMPUTER DAN TEKNOLOGI MAKLUMAT

FACULTY OF COMPUTER SCIENCE AND INFORMATION TECHNOLOGY

Date: 24th January 2024

To Whom It May Concern,

RECOMMENDATION LETTER FOR – MS. SUJANA SAMIA SINTHIA.

I would like to recommend Sujana Samia Sinthia for master's admission. I have had the pleasure of being her mentor and supervisor during her final year project at University Putra Malaysia. I am confident that she will excel in any endeavour she chooses to pursue. I have known Sujana both personally and professionally for more than 2 years. Sujana is an exceptional student who has consistently demonstrated a high level of dedication, enthusiasm, and intellectual curiosity throughout the course of her final year project.

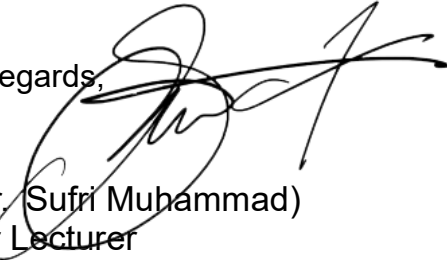

The project, titled "Space Reservation Management System", focused on developing an online application for meeting room reservation in the Faculty of Computer Science and Information Technology in University Putra Malaysia, and she exhibited a remarkable ability to grasp complex concepts and apply theoretical knowledge to real world scenarios.

Throughout the project, Sujana showcased excellent analytical and problem-solving skills. Her ability to work independently and collaborate effectively with other team members was crucial to the success of the project. In addition to her technical abilities, Sujana exhibited strong communication skills. She was able to articulate complex ideas in a clear and concise manner, both in written reports and oral presentations.

Her willingness to seek feedback and incorporate constructive criticism further demonstrates her commitment to personal and professional growth. Furthermore, she displayed a strong work ethic and a positive attitude throughout the duration of the project. She consistently met deadlines and demonstrated a genuine passion for the subject matter.

In conclusion, I wholeheartedly recommend Sujana for any academic or professional pursuits. I am confident that her dedication, skills, and passion will make her a valuable asset in any academic or professional development. Please feel free to contact me at sufry@upm.edu.my or +60397691654 if you require any further information or clarification.

Best Regards,

(Ts. Dr. Sufri Muhammad)

FAKULTI EKOLOGI MANUSIA
FACULTY OF HUMAN ECOLOGY

25th May 2024

To Whom It May Concern,

RECOMMENDATION LETTER FOR MASTER ADMISSION – MS. SUJANA SAMIA SINTHIA.

I am writing this letter to support Miss Sujana Samia Sinthia's application for her graduate study. I have known her for three years, ever since I taught her in the Malaysian Values Culture and Society course (FEM2310) in the 2020 to 2021 academic year. It is very exciting to see her remarkable progress in her study here at Universiti Putra Malaysia.

The teaching experience allowed me to witness her growth inside and outside the classroom. In my class, she was always engaged in group discussions on case studies and showed great passion for listening to different ideas and learning a wider range of knowledge. Apart from this, she worked actively in group tasks, and the teamwork she presented was often of high quality. I am sure her contributions to the teamwork were extraordinary. More importantly, she showed her unique insight into different cultures and social problems, from which I can see her high attention and thinking on social issues and realized that she is a student with strong research potential. Her positive learning attitude and clear learning aim made her excel in other students academically. In my course, she achieved excellent result with an A.

Sujana has expanded her learning experience to software engineering in a broad context. Apart from theoretical knowledge, she proactively participated in many practices to strengthen her practical ability and broaden her fields of expertise. I believe the understanding of the computer technology world and knowledge and experience she gained through the internship would guide her to achieve more significant success at your graduate school.

Sujana excelled in my class, and I wholeheartedly endorse her determination to pursue a graduate degree. I am confident that your master's program would offer her the optimal environment for rapid personal and professional growth. With no doubt, Sujana stands out as one of the top candidates for a master's program, and I enthusiastically recommend her for admission to your program.

Sincerely,

Assoc. Prof. Dr. Ratna Roshida Ab Razak
